The Honorable Nancy Pelosi Speaker of the House of Representatives U.S. Capitol Building, H-222 Washington, DC 20515

The Honorable Kevin McCarthy House Republican Leader U.S. Capitol Building, H-204 Washington, DC 20515 The Honorable Mitch McConnell Senate Majority Leader U.S. Capitol Building, S-230 Washington, DC 20510

The Honorable Charles Schumer Senate Democratic Leader U.S. Capitol Building, S-221 Washington, DC 20510

Dear Speaker Pelosi, Leader McConnell, Leader McCarthy, and Leader Schumer:

The undersigned state, specialty, and national medical associations collectively employ thousands of employees and represent hundreds of thousands of physician members across the country. We greatly appreciate the actions taken by Congress to help physicians on the frontlines of patient care meet the demands of the COVID-19 pandemic. This includes passage of the CARES Act and the Paycheck Protection Program and Health Care Enhancement Act, which established and provided supplemental funding for the Paycheck Protection Program (PPP). These Acts have helped many physician practices and other small businesses, including 501(c)(3) nonprofit organizations, cover payroll and other expenses during a period of severe loss in revenue caused by the COVID-19 public health emergency. We join with thousands of other professional and trade associations throughout the country in urging Congress to extend eligibility for the PPP loan program to include Internal Revenue Code section 501(c)(6) nonprofit organizations in the final version of the next COVID-19 aid package.

The CARES Act limited the types of nonprofit organizations that are eligible for a PPP loan to 501(c)(3) organizations. This means that other 501(c) nonprofit organizations, such as 501(c)(6) professional associations, cannot access the same PPP loans—or the favorable features of such loans, such as forgiveness—as other small businesses. However, many 501(c)(6) organizations are small businesses, and the COVID-19 public health emergency has had the same devastating impact on their business operations and ability to retain employees as other small businesses. For example, many medical professional associations generate a significant portion of their revenue by holding conferences and providing essential continuing medical education sessions that help maintain and improve quality patient care. Because the COVID-19 public health emergency has caused these conferences to be cancelled, many professional associations are facing severe financial losses and are in urgent need of financial assistance to remain in business. This could lead to the reduction in other services that benefit patients and are essential to maintaining a strong physician workforce, such as programs that improve the quality and efficiency of physician practices, improve physician satisfaction and wellbeing, or provide a pathway for clinical reentry following a life event such as raising a family.

501(c)(6) nonprofit organizations not only contribute significantly to the economy, they employ staff that are dedicated to improving the quality of the professional membership or trade they represent. We thank you for your consideration.

Sincerely,

American Medical Association
